SATURDAY, 30 NOVEMBER 2024 - 6:30PM

**MARITIME BALLROOM
HYATT REGENCY SYDNEY
161 SUSSEX ST, SYDNEY NSW**

**CELEBRATING THE GOLDEN ERA
OF THE '70s AND '80s IN SUPPORT OF**

Funding Brain Cancer Research

&

**TWO ORGANISATIONS DEDICATED TO FUNDING RESEARCH AND SUPPORT
PROGRAMS FOR PATIENTS WITH BRAIN AND OTHER RARE CANCERS**

Sponsorship Packages

The Event

Our anticipated **500 – 600** attendees will include a diverse mix of some of Australia's leading medical specialists, CEOs, leaders of business and the professions, community leaders, philanthropists, health advocates, politicians and individuals who share a passion for supporting cancer research and patient care.

This event will also provide a wonderful opportunity to connect with like-minded individuals and make a meaningful impact.

The Event's Beneficiaries

White Pearl Foundation

Created by Suzane Peponis-Brisimis in memory of her mother, **Mrs Christina Peponis**.

The White Pearl Foundation supports the Research, Education and Support programs of **The Brain Cancer Group (TBCG)**. The Group of doctors and researchers is located at the North Shore Hospital campus in St Leonards, and is committed to improving patient outcomes across the spectrum – from patient care to working towards finding a cure for this devastating disease. They do this by taking a multi-disciplinary and collaborative approach to deliver meaningful programs for patients and their families.

ALL PROFITS donated from White Pearl Foundation events to The Brain Cancer Group, go directly to brain cancer research.

www.whitepearlfoundation.org - www.braincancergroup.com.au

Cquence Foundation

Established by **Yiota Clayton** (Peter and Kanela Kaliaropoulos' daughter), a rare cancer patient, who in June 2022 sadly lost her battle with cancer.

Cquence Foundation's aim is to provide cancer patients, carers and their families a small ray of hope by:

- helping subsidise molecular and genomic testing for rare and/or advanced cancer patients which may lead to other treatment options.
- generating awareness of testing options as well as other personalised integrative treatments for cancer patients.
- advocating and lobbying government bodies to help fund genomic testing and subsequent PBS approved medications, and
- helping rare and/or advanced cancer patients navigate the complexities of testing via arranging and funding "second opinions" with experts in the patient's cancer and driver mutations.

Cquence Foundation will donate 100% of profit received from this event to the Global Centre for Gynaecological Diseases, at the University of Newcastle. This is a world-leading, translational research centre, focused on improving the gynaecological health of women.
